

**1. Early years**  
 Caregiver using substances, mental health challenges, domestic abuse and father in prison. Child suffers emotional and physical neglect.

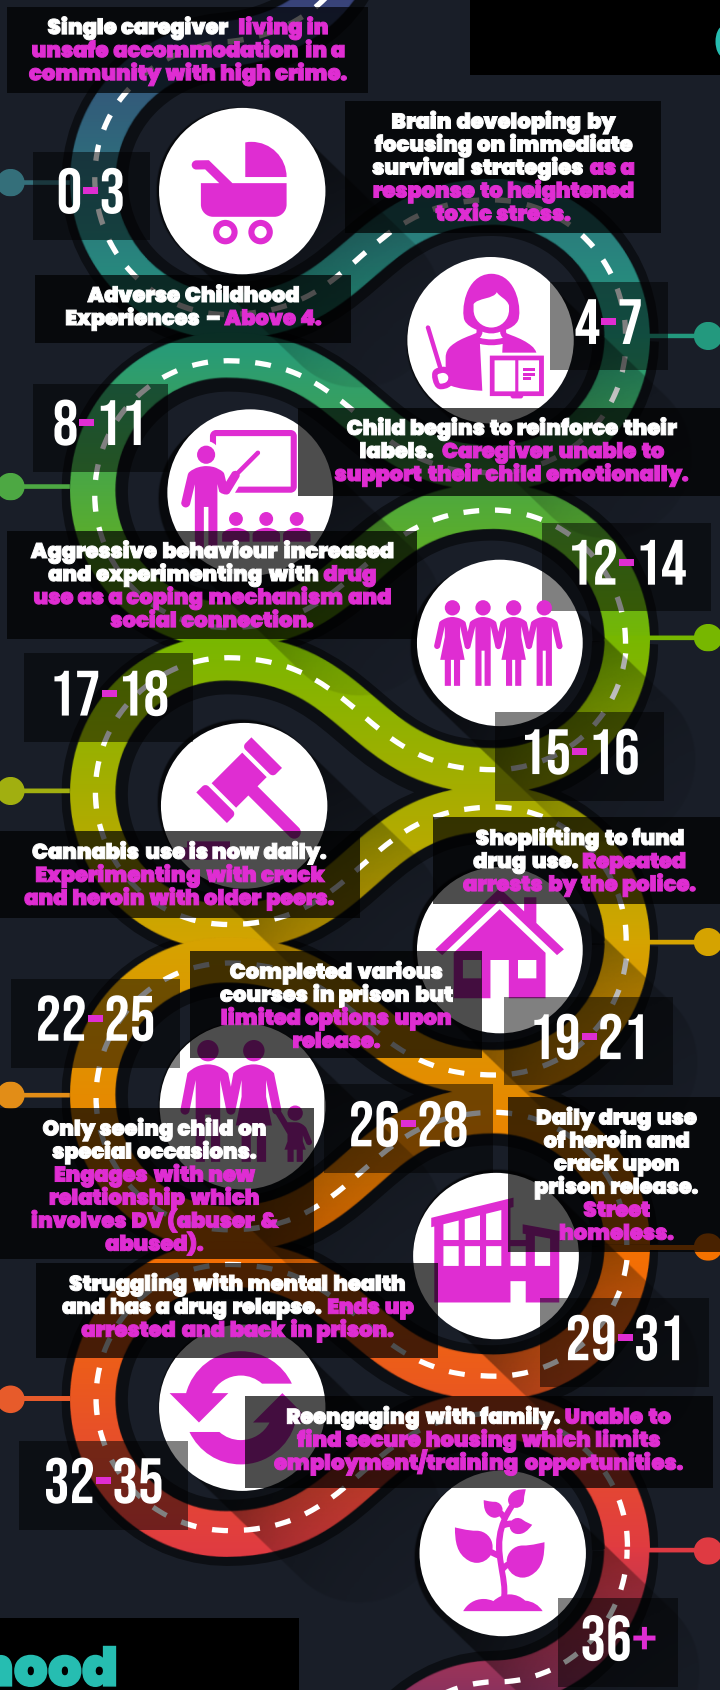

**3. Secondary School**  
 Behaviours reinforced. Not achieving academically and not attending. Moved to a Pupil Referral Unit.

**5. Crime**  
 Drug running has led to engagement with the police and the youth offending system. Further anti-social behaviour – moved out of home and living in supported accommodation.

**7. Family**  
 Had first child at 22. Relationship broke down before birth. In prison when born. Limited contact when released.

**9. Stuck in the cycle**  
 Placed into drug rehab. Attempting to move on but options limited once rehab completion. On waiting list for housing. Various assessments with many services. Repeating own traumatic story.

**From childhood adversity to being in the system.**

**2. Primary School**  
 Struggling to engage in structured sessions, to regulate emotions and their behaviour. Child labelled as difficult, challenging and a troublemaker.

**4. Teenage years**  
 Connected with group made up of older teens. Exploited as a drug runner and using cannabis regularly.

**6. Services - initial**  
 Experiencing first prison sentence due to drug use and acquisitive crime, unstable housing, heightened anxiety and depression

**8. Services - ongoing**  
 Engaging with the local drug service. On Methadone script and abstinent. In temporary accommodation and on waiting list for mental health support.

**10. Growth**  
 Now abstinent from drugs, avoiding criminal peer groups and attending regular support groups. Feeling bored, lonely, frustrated and lacking in stability and safety.
